VINEET KUMAR

vineet.kumar@mail.mcgill.ca, 514-970-9179

- · Over 6.5 years of relevant work experience. | M.Sc Computer Science, McGill University.
- · Relocating to Toronto, available from July.
- · Programming languages Proficient: Python, C++, Java. | Prior experience: X10, MATLAB.
- · Skills and interests: System software, data analytics, distributed computing, and web backend systems.

WORK EXPERIENCE

INRO

December 2014 - present Montreal, QC, Canada

Senior developer

- · Contribute to research and development of Emme and CityPhi. Emme is a travel demand modelling system for transportation forecasting. CityPhi is a visual analytics software for large-scale spatial and mobility data.
- · Wrote a new compiler and memory management system for Emme's matrix calculator language. Achieved up to 30x faster performance. It is efficient even for computations on large matrices (over 1 GB). (C++ and Python)
- Data analytics for GTFS and transit smart-card data: Developed techniques and tools to visually analyze and query public transit data. These tools are used by clients to analyze and query things like loads, delays, and stop activities. (Python)
- · Designed and developed **new Python API modules** for Emme's Fortran backend using Emme's macro language as interface.
- · Designed and built Cityphi's data import backend and API to import geo and transport data from various formats like Shapefiles, OSM and GTFS. Also work on optimizing and extending the core data backend. (C++ and Python)

ISENCORE Technologies

CTO and co-founder

September 2013 - December 2014

Montreal, QC, Canada

- · Developed the 3D object discretization module for Quirdity, ISENCORE's 3D simulation engine. It generates a voxel tree and the associated data for a 3D model. (C++)(bit.ly/discretizer)
- · Won first prize in the Mcgill Dobson cup 2014 startup competition.
- · Delivered the winning pitch to get selected as one of the 20 startups worldwide to present at SLUSH 2014.

McGill University - Sable Compilers Research Lab Research and Teaching

January 2012 - April 2014

Montreal, QC, Canada

- · Research Assistant, Sable Lab My research included program analysis and static compilation of dynamic languages.
 - · Designed and developed MiX10: a Matlab to X10 compiler for high-performance, under Prof. Laurie Hendren's supervision and with direct inputs from the X10 design team at the IBM T.J. Watson research center. (Java)(bit.ly/getmix10)
 - · Achieved 7 times (mean) faster performance compared to the standard MATLAB implementation.
- · Discovered a severe performance bottleneck in the X10 compiler.
- · Teaching Assistant Program Analysis and Transformations, Compiler Design, and Introduction to Computer Systems.

Infosys Technologies Ltd.

 $Systems\ Engineer$

September 2008 - August 2011

Pune, India

- · Led a team of 4 for deployment performance management for AT&T's online and mobility frontend and backend applications.
 - · My team's job was to design and develop performance test scripts, analyze results, and troubleshoot performance issues.
- · Worked on 8 projects and they all exceeded performance SLA under peak loads.

Sun Microsystems

January 2007 - May 2008

Bangalore, India

Intern - Student Tech Lead, APAC region/Campus Ambassador

- · Promoted from being one of the only 27 Campus Ambassador across India to one of the only 5 Tech Leads worldwide.
 - · Taught a course on OpenSolaris at the university. Conducted webinars and developed tutorials for ambassadors worldwide.

PUBLICATIONS

- Vineet Kumar and Laurie Hendren. MIX10: Compiling MATLAB to X10 for High Performance. In Proceedings of the 2014 ACM International Conference on Object Oriented Programming Systems Languages & Applications (OOPSLA '14). (bit.ly/1papr1)
- Vineet Kumar and Laurie Hendren. First steps to compiling MATLAB to X10. In Proceedings of the 2013 ACM SIGPLAN X10 Workshop, X10 '13 co-located with PLDI 2013.(bit.ly/2papr2)

EDUCATION

McGill University

April 2014

M.Sc. in Computer Science

Montreal, QC, Canada

· Master's thesis reviewed as "Excellent" by the external reviewer.

SASTRA University

June 2008

B. Tech. in Computer Science & Engineering

Thanjavur, India

· Won the Dean's list scholarship for being among the top 10% students in the University.

OTHER PROJECTS

- · Analysis to identify complex numerical values for MATLAB programs.(bit.ly/iscomplex)
- · Developed a language to express information propagation through library function calls.
- · FreeMeLegal: An Open source license recommendation engine. (bit.ly/freemelegal)
