VINEET KUMAR

vineet.kumar@mail.mcgill.ca, 514-970-9179

- · 8 years of relevant work experience | M.Sc Computer Science, McGill University
- · Languages Python, C++, Java | Skills and interests System software, compilers, backend systems, data analytics

WORK EXPERIENCE

Huawei Canada Research Center - Compiler Technologies Lab

September 2017 - May 2018 $Toronto,\ ON,\ Canada$

Senior Software Engineer

- · Developed a new way to dynamically resize available heap size in the JVM (with Serial GC).
- · Contributed to the compiler framework being developed for Huawei's new AI processor.

INRO Senior Developer December 2014 - September 2017

Montreal, QC, Canada

- Wrote a **new compiler and memory management system** for Emme's matrix calculator language. Emme is a travel demand modelling system for transportation forecasting, used by some of the world's most populous cities.
- · Achieved up to 30x faster performance. Efficient even for computations on large matrices (over 1 GB). (C++ and Python)
- · Designed and developed data analytics tools for public transit data.
 - · Enabled our clients to visually analyze and query things like loads, delays, and stop activities. (Python)
- · Designed and built the data import backend and API for CityPhi, an analytics platform for spatial and mobility data at scale.
 - · Support for various geographical and transit data formats like shapefile, OSM and GTFS.
 - · Optimized to handle large datasets by importing data only in specified spatial and/or time windows. (C++ and Python)

ISENCORE Technologies

September 2013 - December 2014

CTO and co-founder

Montreal, QC, Canada

- · Won first prize with \$10,000 in funding in the Mcgill Dobson cup (SME category) 2014 startup competition.
- · Delivered the winning pitch to get selected as one of the 20 startups worldwide to present at SLUSH 2014.
- \cdot Developed the ${\bf 3D}$ object discretization module for Quirdity, ISENCORE's 3D simulation engine.

McGill University - Sable Compilers Research Lab

January 2012 - April 2014

Research and Teaching

Montreal, QC, Canada

- $\cdot \ \mathbf{Research} \ \mathbf{Assistant}, \ \mathbf{Sable} \ \mathbf{Lab} \ \textbf{-} \ \mathbf{My} \ \mathbf{research} \ \mathbf{included} \ \mathbf{program} \ \mathbf{analysis} \ \mathbf{and} \ \mathbf{static} \ \mathbf{compilation} \ \mathbf{of} \ \mathbf{dynamic} \ \mathbf{languages}.$
 - · Wrote MiX10: a Matlab to X10 (programming language) compiler for high-performance. (Java)(bit.ly/qetmix10)
 - · Achieved 7 times (mean) faster performance compared to the standard Matlab implementation.
 - $\cdot \ \ Designed \ a \ new \ algorithm \ to \ identify \ and \ safely \ type cast \ floating \ point \ values \ to \ integers \ at \ compile \ time \ for \ improved \ performance.$
 - \cdot Discovered a **severe performance bottleneck** in the X10 compiler and helped improve the X10 compiler.
- · Teaching Assistant Program Analysis and Transformations, Compiler Design, and Introduction to Computer Systems.

Infosys Technologies Ltd.

September 2008 - August 2011

Pune, India

· Led a team of 4 for deployment performance management for AT&T's online and mobility frontend and backend applications.

- · My team's job was to design and develop performance test scripts, analyze results, and troubleshoot performance issues.
- · Worked on 8 projects and they all exceeded performance SLA under peak loads.

Sun Microsystems

Systems Engineer

January 2007 - May 2008

 $Intern\ -\ Student\ Tech\ Lead,\ APAC\ region/Campus\ Ambassador$

Bangalore, India

- · Promoted from being one of the only 27 Campus Ambassador across India to one of the only 5 Tech Leads worldwide.
 - · Taught a course on OpenSolaris at the university. Conducted webinars and developed tutorials for ambassadors worldwide.

PUBLICATIONS

- · Vineet Kumar and Laurie Hendren. MiX10: Compiling Matlab to X10 for High Performance. In Proceedings of the 2014 ACM International Conference on Object Oriented Programming Systems Languages & Applications (OOPSLA '14).(bit.ly/1papr1)
- · Vineet Kumar and Laurie Hendren. First steps to compiling MATLAB to X10 . In Proceedings of the 2013 ACM SIGPLAN X10 Workshop, X10 '13 co-located with PLDI 2013.(bit.ly/2papr2)

EDUCATION

McGill University

April 2014

M.Sc. in Computer Science

Montreal, QC, Canada

· Won the DFW scholarship awarded to exceptional international Research Master's students.

SASTRA University

June 2008

B. Tech. in Computer Science & Engineering

Thanjavur, India

 \cdot Won the Dean's list scholarship for being among the top~10% students in the University.

OTHER PROJECTS

- · Analysis to identify complex numerical values for MATLAB programs.(bit.ly/iscomplex)
- · FreeMeLegal: An Open source license recommendation engine. (bit.ly/freemelegal)
